

4 ft above FEMA flood zone: 18.4 ft. MSL

The image is an aerial photograph of an industrial facility, possibly a water treatment plant, situated near a body of water. The facility consists of several large buildings with white and dark roofs, numerous cylindrical storage tanks, and various pieces of equipment. A yellow oval highlights a specific area on the left side of the facility. A yellow arrow points from this oval to a text box labeled '150 ft'. Another text box labeled '22.5 ft MSL' is located near the bottom left of the oval. The facility is bordered by a concrete wall on the right side, which appears to be a dam or levee. The water is visible in the top right corner of the image.

- High tide 13.4 + 2 ft surge + 3 ft wave (Juno 4 ft surge)
